WomenTechWomenYes Canvassing Strategy

By Abishek Gollapudi, Zoey Herm, and Max Staley

Project Overview

Background

• WTWY annual summer gala is coming up!

Deliverable

Suggest subway stations to canvas and gather emails

Ideal Target

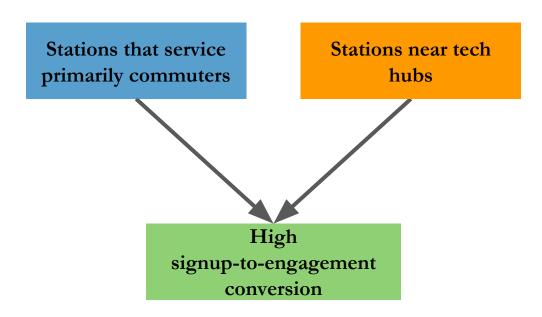

- Email signup will convert to attendance or donation
- Interfaces with women in tech
 - Already passionate
 - Might be passionate once exposed to WTYS!

Methodology

Commuter Stations

- Source: MTA data (May 2018)
- Criteria:
 - High weekday:weekend ratio
 - High rush hour:mid-day ratio

Tech Hub Stations

- Source: NYC open data
- Criteria: Sample of 500 tech companies

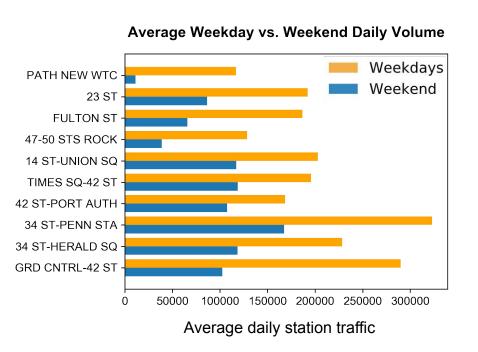

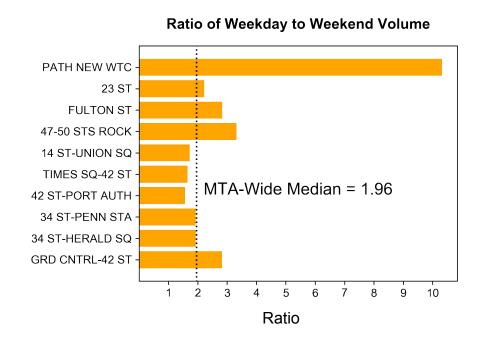

Weekday vs. Weekend Usage

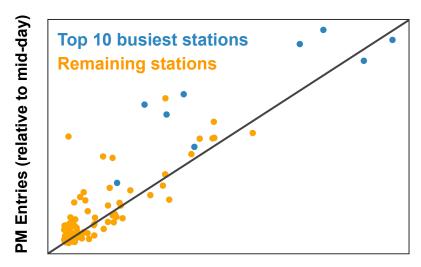

Stations with relatively **higher weekday volumes** have relatively **more commuters**, as opposed to tourists and local residents.

Rush Hour: Morning Exits, Evening Entries

Commuter station: Busy during rush hour vs. other times

- Many entries in the evening to go home
- Many **exits in the morning** to go to work

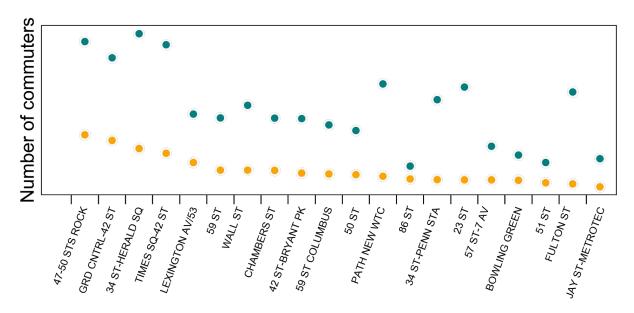

AM Exits (relative to mid-day)

Most top 10 busy stations fit the commuter station profile

Rush Hour: Morning Exits, Evening Entries

Commuter station: Busy during rush hour vs. other times of day

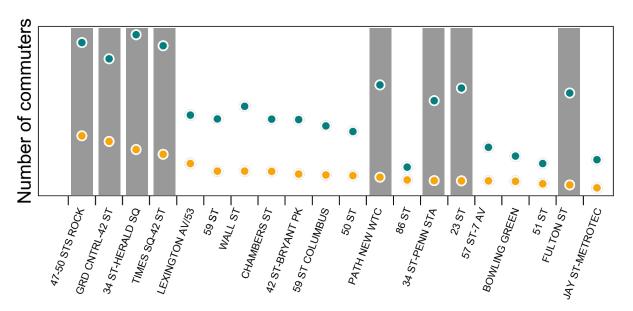

- Many <u>entries in the evening</u> to go home
- Many **exits in the morning** to go to work

Rush Hour: Morning Exits, Evening Entries

Commuter station: Busy during rush hour vs. other times of day

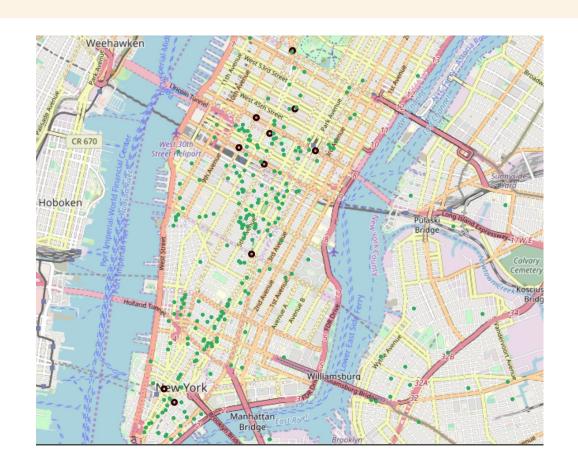

- Many **entries in the evening** to go home
- Many **exits in the morning** to go to work

Most top 10 busy stations are commuter stations

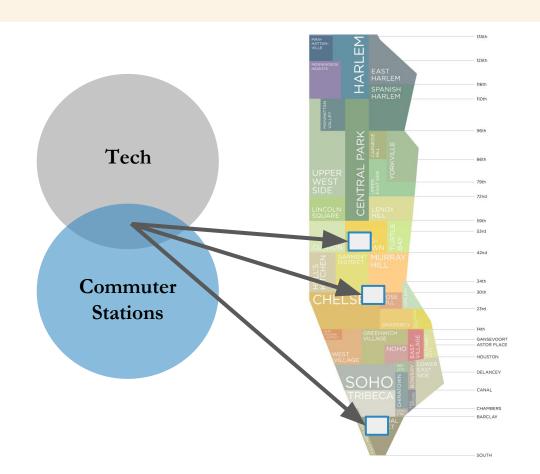

Geospatial Data: Proximity to Tech Companies

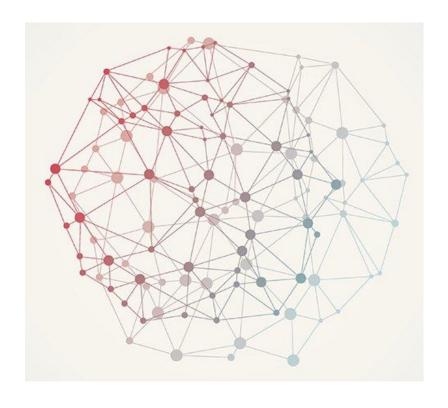

Station Recommendations

Four stations are near tech centers and fit the commuter station profile

- Midtown
 - Penn Station
- Flatiron District
 - o 23rd St
- Financial District
 - Fulton St.
 - World Trade Center

Opportunities for Further Development

Refine to target *high income* tech workers

• Look at where the commuters are coming from

Incorporate behavioral psychology

• Canvas near home or work?

Model optimal granularity of street team deployment

• Use size, availability of street team

Incorporate previous years' conversion rates

• Email signups \rightarrow attendance

Top 10 Stations by total traffic (24/7)
